**Suffering From
Heart Disease.**

**Dr. Miles' Heart Cure
Gave Me Health.**

"Some years ago I suffered greatly with heart disease. I tried the best doctors in our county and got no relief until I began the use of Dr. Miles' Heart Cure. I used three bottles and have not had occasion to call a doctor since. It restored my heart to healthy activity and has given me a new lease of life. Prior to taking the remedy I was very restless and got but a few hours sleep during the night, felt tired out, had no ambition, was completely discouraged and had given up all hopes of getting better. I had taken so much medicine without relief that I had little faith when I began taking the Heart Cure, but after taking one bottle I could rest well. My stomach did not trouble me and in three months my health was completely restored. It is nearly six years since I stopped taking the Heart Cure and have had no return of the old symptoms and I know my cure is permanent."—LEWIS LAWRENCE, Ft. Worth, Texas.

Dr. Miles' Heart Cure pleases every one who tries it. Taken, primarily, to strengthen the heart, the patient is pleasantly surprised to find that after a short time, his stomach is in better condition, his nerves are steadier, his color better, his strength greater, his appetite is improved and that he rests better at night. The reason is plain. It cures the symptoms by removing the cause. Stop doctoring your symptoms. Remove the cause with Heart Cure, the great heart and blood tonic.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

GROWN IN KENTUCKY.

**Thousands of Square Feet For
Agricultural Products.**

COLLECTION OF EXHIBITS BEGUN.

Everything That Springs From the Rich Soil of the Blue Grass State to Have a Place in the World's Fair Display—One Department For Feeds.

Kentucky will have 12,000 square feet of space in the Agricultural building at the Louisiana Purchase exposition next year. Five thousand square feet of this will be devoted to a collective exhibit of tobacco, 5,000 to general agricultural products and 2,000 to whisky.

Col. Ion B. Nall, State Commissioner of Agriculture, is chairman of the committee on exhibits of agriculture and horticulture for the Kentucky Exhibit association, and under his direction agricultural and horticultural products will be gathered for 5,000 square feet of space in the Agricultural and for 3,000 square feet of space in the Horticultural building. Col. Nall has just issued a general circular of instructions, known as No. 2, on the collection of the agricultural displays, to the subcommittees in the different counties of the state, the total membership of his committee and subcommittees numbering 449.

In introducing this second circular Col. Nall says: "The object of the exhibit is primarily to advertise Kentucky, her land, her opportunities and everything that will tend to attract attention of home-seekers and investors to her yet undeveloped resources."

COL. ION B. NALL,
Chairman Committee on Agriculture.

Her prospects in many respects are unequalled and, in a few, exclusively her own. While much of her land is in profitable production, there are many thousands of acres lying idle or only producing half what should be grown. These need only the touch of skillful cultivation to bring the maximum of crops. We need the help of the educated farmer, from whatever source he may come. We need capital to further develop the state and improve her lands. Her World's Fair gives us the opportunity of obtaining this needed assistance by letting the world know what we can do. "By their fruits shall ye know them."

Following this the chairman takes up different agricultural products and gives minute instructions to county committeemen on the collection of same. He asks for samples of grain as follows:

Corn—Entire stalk, 10 in number, with blades, ears and tassels complete; ears, 10 in number, shelled, one-third gallon in strong cotton bag. The varieties should all be shown, white, yellow, red, mixed, popcorn, Kaffir corn, etc.

Wheat—Sheaf, nine inches in diameter, bound with twine or wire; threshed, one-fourth bushel in cotton bag; should be shown in every variety grown in the state. The macaroni and Emmer wheat should be shown.

Oats—Sheaf, nine inches in diameter, bound with twine or wire; threshed, one-fourth bushel in cotton bag. Black, white, mixed, winter and every other variety.

Rye—Sheaf, nine inches in diameter, bound with twine or wire; threshed, one-fourth bushel, in cotton bags. White, black and any other variety known to be grown in the state.

Barley—Sheaf, nine inches, bound as above; threshed, one-fourth bushel in cotton bags.

Buckwheat—Sheaf, nine inches; threshed, one-fourth bushel in cotton bags.

G. W. Waddy of Waddy and J. B. Walker of Hopkinsville are chairmen of the subcommittees on grain for the eastern and western districts of the state respectively.

On grasses, Col. Nall says that all grain in the state, whether for meadow, pasture or forage, should be included. These samples, he states, should be about six or seven inches in diameter for the long grasses and less for the short ones, and should be carefully cured so as to retain bright color and sweetness. He wants 1-2 seeds of each variety of grass shown in samples of one gallon each. J. W. Smith of Glendale is at the head of the subcommittee collecting grasses. The Hon. J. J. Johnson of Louisville is to look especially to a display of grasses from the mountains.

While a special committee, of which Mr. Chas. D. Campbell is chairman, will have charge of the tobacco exhibit at the fair, Col. Nall has deemed it wise to include in the general agricultural display a section for tobacco, and has placed in charge of the collection of same H. M. Froman of Ghent, for the burley type, Samuel R. Ewing of Owensboro for the dark export type and Judge T. T. Gardner of Bardwell for "the purchase" types. These gentlemen will only undertake to get two or three good samples from each tobacco growing county for exhibition among other products of the state. Col. Nall says it is proposed in this space to also show the tobacco plant from the seed in quart jars to samples of 10 pounds, as it is sold on the market. He instructs that samples should be six to ten hands, of about ten leaves each. He also wants an exhibition in all their stages of growth of the destructive insect enemies of tobacco. The committee will erect, the chairman announces, a small section of a barn and secure enough sticks of tobacco to show the curing process. It will also have seed stalks and seed capsules on display.

One of the most attractive exhibits in the agricultural department will be that of hemp. Major David Castlemann of Pleasant Hill having consented to look after the collection of this display. This plant will be shown in all its stages, from seed to lint, and it is contemplated that an old-fashioned "brake" will be secured and an exhibition of breaking hemp will be given by the champion breaker of Kentucky. An old negro in Mercer county holds the 1902 record for hemp-breaking. It is possible that some hemp-breaker will lower the Mercer county record during 1903. The Exhibit association wants to send to the exposition the champion hemp-breaker, and will be glad to have reports from different hemp sections on any exceptionally large "breaks." The samples of hemp seed will be one-half bushel in cotton bags, and samples of the burlies about eight inches in diameter at the middle.

Mr. Clarence Sale, of Louisville, will be in charge of the display of garden products. He expects the greater part of his display to be made from the crop of 1904. Quite a large space is to be devoted to silos and forage plants. Dr. P. W. Foote, of Irvington, having accepted the chairmanship of this committee. Colonel Nall says an effort will be made to secure a large glass tube in which to exhibit silage. Leguminous plants useful for forage and hay will be gathered under this department.

Mr. M. F. Johnson, the president of the Kentucky Horticultural society and chairman of the horticultural committee of the Exhibit association, will have 3,000 square feet of space in the Horticultural building in which to make a display of Kentucky fruits. He is laying plans for the biggest exhibit of this kind ever attempted by Kentucky. It is his purpose to keep a continuous exhibition of fruits in season during 1904. Not trusting, however, to uncertainties of seasons, Mr. Johnson will endeavor to secure some of the finest fruits this year and will keep same in glass or in cold storage for the Fair. The display of fresh fruits will be requested from all the counties and Colonel Nall says should be looked to locally from each county under instructions to be given later.

The floral display is to be made under the direction of Henry Nanz, of Louisville.

Space is also to be devoted in the agricultural display to novelties. Under this head will come any freak of nature in the way of the largest pumpkin, the twin ear of corn, the stalk with most ears on it and in fact anything favoring of the soil and yet unusual in its way. It will also include all the native wild products, such as nuts, grapes, paw-paws, black and red haws, and many other things that are about to be lost as the country is settled. Colonel Nall asks county committees to take special interest in this department, as it will show the range of production the soil is capable of.

WORLD'S FAIR NOTES.

A clock made entirely of flowers is a World's Fair feature. This clock has a dial 100 feet across and its hands are 50 feet long. It is the largest timepiece in the world.

The demand for lithographic prints of the official flag of the Louisiana Purchase Exposition is growing rapidly. The big business houses have sent out a great many thousand of them.

An emergency hospital has been established by Medical Director Laidley in the northwest entrance pavilion of the Educational building at World's Fair at St. Louis. The pavilion, temporarily converted into a room by closing the doors, is 50 feet square.

Work on Jerusalem, one of the great concessions on The Pike, will begin in a few days. The Holy City will be reproduced and it will appear as it did in the days of Solomon. More than half a million dollars will be spent in completing the work, which will be historically correct.

An express car loaded with about 100 turnstiles from Cleveland, O., reached the Exposition grounds last week. It is seldom so large a shipment as a carload comes by express, but the immediate need for the appliances caused the dispatch.

The State department at Washington reports that the Emperor of Korea has formally accepted the invitation to take part in the Louisiana Purchase Exposition. The Emperor has directed his minister in Washington, Mr. Min-hui Cho, to make arrangements for the exhibit of his country. This final action of Korea makes it almost certain that every independent nation of Asia with which Commissioner Barrett conducted negotiations will be well represented.
